

# Getting aged care right for older Australians and their families

All older people deserve access to the highest quality of care

When they need it

Where they need it

Regardless of who they are

Wherever they are, whatever their circumstances.

This Federal election, the National Aged Care Alliance is calling for:

**1** Increasing funding for home care so that all Australians waiting for care receive it when they are assessed as needing it, and at the right level to match their needs.

**2** A consistent and flexible funding model of aged care supporting older Australians to improve their health and wellbeing, wherever they live.

**3** Access to services and outcomes for vulnerable older Australians that are the same as for other Australians by providing them with additional support and funds where necessary.

**4** A simpler aged care system that is easier for consumers to understand, and more help navigating the system for people who need it.

All Australians deserve to age well.  
Let's get aged care right for everyone
